

UNI CODEGRIP

PID: MIKROE-5162

UNI CODEGRIP is a fast USB-C and WiFi programmer and hardware debugger. It supports several MCU architectures from different vendors.

The package contains:

- Damage resistant protective box
- UNI CODEGRIP
- CODEGRIP ADAPT V1 - 10 pin 0.10" pitch ARM Cortex Debug adapter
- WiFi Antenna right angle SMA
- User Manual
- USB-C cable
- USB-C Female to USB-A Male Adapter
- Flat Cable with 10-pin 0.10" pitch female connectors

Specifications

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
 ISO 14001: 2015 certification of environmental management system.
 OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).

Interface	USB
Silicon Vendor	GigaDevice, Microchip, NXP, STM, Texas Instruments
Category	CODEGRIP
