

0.3mm Pitch, 0.9 mm Height, FPC Connector

CONNECTOR

FB10-JT1 Series

MB-0310-1

June 2016

The FB10-JT1 Series is a 0.3mm pitch, low profile, bottom-surface connection type FPC connector ideally suited for ever-smaller portable devices such as smartphones, tablet PCs, and digital cameras.

Features

- Space saving FPC connector with 0.3mm pitch, 0.9mm height, 2.5mm depth.
- Applicable FPC thickness $0.2\text{mm} \pm 0.03\text{mm}$, ZIF structure, bottom-surface connection type.
- Guides on the sides of the FPC prevent misalignment by temporary holding the FPC in place until the actuator locks.
- Easy actuator operation
- Open actuator is lightly locked in place so it does not interfere with FPC insertion.
- Board pattern traces are possible under the connector (excluding terminal area).
- Pb-free, halogen-free compliant product.
- Ni barrier prevents solder wicking.
- Compatible with up to DC 0.35A per terminal.

General Specifications

- | | |
|---|--|
| ■No. of Contacts: 11 to 61 pos. | ■Rated Current: DC 0.35A per terminal |
| ■Contact Resistance: $80\text{m}\Omega$ max | ■Rated Voltage: AC, DC 50V per terminal |
| ■Dielectric Withstanding Voltage:
AC250Vr.m.s per minute | ■Applicable FPC Thickness:
$0.2\text{mm} \pm 0.03\text{mm}$ |
| ■Operating Temperature:
-40 Deg. C to +85 Deg. C | ■Pitch: 0.3mm staggered alignment |
| ■Durability: 20 mating cycles | |

Materials and Finishes

Component	Material / Finish
Housing	Heat-resistant resin (White, Halogen-free)
Actuator	Heat-resistant resin (Black, Halogen-free)
Contact (2 types)	Copper alloy / Au plating over Ni Contact area: 0.03μm min. Au plating Terminal area: 0.03μm min. Au plating

Notice:

1. The values specified in this brochure are only for reference. The products and their specifications are subject to change without notice. Contact our sales staff for further information before considering or ordering any of our products. For purchase, a product specification must be agreed upon.
2. Users are requested to provide protection circuits and redundancy circuits to ensure safety of the equipment, and sufficiently review the suitability of JAE's products to the equipment.
3. The products presented in this brochure are designed for the uses recommended below. We strongly suggest you contact our sales staff when considering use of any of the products in any other way than the recommended applications or for a specific use that requires an extremely high reliability.
 - (1) Applications that require consultation:
 - (i) Please contact us if you are considering use involving a quality assurance program that you specify or that is peculiar to the industry, such as:
Automotive electrical components, train control, telecommunications devices (mainline), traffic light control, electric power, combustion control, fire prevention or security systems, disaster prevention equipment, etc.
 - (ii) We may separately give you our support with a quality assurance program that you specify, when you think of a use such as :
Aviation or space equipment, submarine repeaters, nuclear power control systems, medical equipment for life support, etc.
 - (2) Recommended applications include:
Computers, office appliances, telecommunications devices (terminals, mobile units), measuring equipment, audiovisual equipment, home electric appliances, factory automation equipment, etc.
